

Genesee County Catholic Schools Ski and Snowboard Club 2020/21

Friday Nights January 8-the snow melts! (Special early season opportunities beginning in November)

Parents and Students ages 7-18!

With the snow and cold weather creeping up on us, we're officially going to begin the GCCS Ski and Snowboard Club. Anyone interested in participating should contact me as there will be some changes in order to follow social distancing protocols. I will likely be selling tickets from my vehicle in the Mt. Holly parking lot. We plan on skiing every Friday, weather permitting. To participate, please contact Meghan at meghanerp@hotmail.com or by phone at 248.563.5069 Emergency contact information is required, and a rental disclaimer will be required for renters only. It is available at Mt. Holly or from Meghan. Participation is not limited to GCCS students. Please contact me with questions.

GCCS Ski and Snowboard Club Facts:

- All participating students and parents who are skiing must purchase a membership card for \$22. The student card comes with 2 ski lessons or one snowboard lesson. Additional lessons may be purchased from the ski school desk for \$11 for skiers and \$22 for snowboarder. Lift tickets and membership cards for students and adults MUST be purchased directly from me to receive the discount. Lift tickets will be available at a discounted rate of \$22. These must be purchased each day. This rate is only available to students and parents that have purchased a membership card from me. This is a huge discount!!
- Membership cards will also enable you discounts to ski at other times. Student membership cards allow students to ski for \$22 Monday through Friday from 3 to close. Adult membership cards (\$22) include 10/ \$5 off punches that can be used off a full priced lift ticket. Membership cards offer a \$5 discount off holiday rates. Arrangements can be made directly with me to purchase membership cards ahead of time to take advantage of discounts. Payments must be in the form of cash or check and made payable to Mt. Holly. I will require exact change this year for cash payments.
- Mt. Holly operates on the "Patch Program." Skiers and snowboarders will only be allowed on the hills they have earned the appropriate patch for. If your child is experienced, they must still take lessons to earn the patches necessary to ski/snowboard a hill. Once a patch is earned, it can be purchased at the Ski School desk. All patches must be affixed to your child's coat or pants or on a ring secured to their apparel. The patch system allows the Mt. Holly staff to police the hills and make certain that the students are not on a hill that is too difficult.
- Lessons are typically offered at 5, 6 and 7 pm. At times, 4:00 and 8:00 lessons are offered. Ski and snowboard rental is available for an additional \$22, with helmets being an additional \$10.
- GCCS Ski and Snowboard Club will check in from 3:30-6:00 on Fridays at my vehicle in the Mt. Holly parking lot. I will provide information at a later date on how to locate my vehicle. If you plan on a late arrival, you may text me and set a meeting location and time. Tickets must be purchased from the sponsor (Meghan Erpelding).

- Mt. Holly recommends that your child be 10 or older to ski/snowboard without an adult chaperone on the slopes. If you are uncomfortable with this or your child is younger and requires an adult chaperone, you are responsible for providing one. The chaperone can be you, or the parent of another child who is willing to supervise your child. The main chaperone/sponsor will be available at Mt. Holly until 9:00 pm, should your child need anything, but will not be skiing with your child.
- Students/parents may check in with the sponsor at the vehicle. Students not skiing with an adult must be picked up promptly by 9:00 pm. Students skiing with parents are welcome to ski later into the evening. All students must be checked in with the sponsor each night. The sponsor will be leaving Mt. Holly at 9:00.
- It is essential to keep the kids safe. Please ensure your child wears a helmet while skiing/snowboarding!

Please email or text/call me if interested. Contact me to join my email list and learn about early season skiing opportunities beginning in November! I do need a new head count each week.

Please email me if you would like to purchase your ID/Discount card ahead of time.
