Dear Parent/Guardian,

The Genesee County Health Department revised the policy on quarantining close contacts of symptomatic students/staff pending results.

Here are the updates:

- They have included the new mask requirement for K-5 (required at all times except during meals) **effective October 5**. This is a result of Executive Order 185.
- Household members, classmates, and teachers who are close contacts of an isolated symptomatic staff/student with pending test results may continue to attend school and should monitor for symptoms.
- Students can attend school while their sibling is awaiting test results **UNLESS** the sibling awaiting test results had close contact with a known positive case.

Decision Tree: [Student Decision Tree 9.29.pdf](#)

Have a great night!

Mrs. Theresa Purcell
